Not only swag that refers to free promotional articles given to participants, but also swag that refers to elegant confidence. It is likely that the feeling of swag meaning loot comes from a term thieves used to describe stolen goods. The freebie swag, sometimes also spelled schwag, dates back to the 1960s and was used to describe promotional articles. According to our files, early swag was everything from promotional records sent to radio stations to free slippers for airline passengers. In short order, this particular meaning of swag broadened and soon referred to everything given to a participant in an event (e.g. a conference) as a public relations stunt. This swag didn't get much use until the 1990s, but it also didn't seem out of thin air. The newer meanings were based on an older, more established meaning that referred to goods acquired through illegal means: Silverware at the time was the choicest swag known to burglars... – Willamette Farmer [Oregon], 14 October 1898 It is likely that the loot sense of swag came into English from thieves' cant. We have 17th-century evidence of a number of phrases from the underworld that use this sense of swag, like swag-shop (a shop selling goods) and rum swag (full of rich goods). The mother swag, however, is not stolen but is given freely. We have entered this promotional sense of swag in our Unabridged Dictionary. What about the other swag? It's a slang word that refers to stylish self-confidence. It pops up in songs (check out my swag, yo/I go like a baller-Jay Z) and social media hashtags, but this word comes from bragging rights, not from stolen goods. And although it sounds newer than free stuff swag, this swag is actually older. We can trace it back to 1640, where it is used to refer to male swag fellows.
